ABSTRACT

This handbook provides specific advice on all aspects of job-seeking in an increasingly tight academic market, from the timetable for the application process through seeking tenure. New material in this edition provides more information for candidates in scientific and technical fields and more advice for those applying to technical and community colleges. The chapters are: (1) "What You Should Know before You Start"; (2) "Planning and Timing Your Search"; (3) "Written Materials for the Search: Suggestions and Samples"; (4) "Conducting the Search"; (5) "After You Take the Job"; and (6) "Thinking about the Expanded Job Market." Appendixes list job listing sources and 27 references for additional reading. (SLD)
